By Appointment.

To the Rescue. When news comes to a lifeboat station of a vessel in need of help, a tug goes out with the lifeboat in tow, and they are thus able to go straight to the vicinity of the wreck, thereby saving much valuable time. When the scene of action is reached, the lifeboat goes on by herself, the tug standing by to assist on the return journey. If the weather is too bad for the tug to go out, the lifeboat has perforce to dispense with her assistance.
